About Xponance[®]

Xponance[®] is a multi-strategy investment firm offering strategies across equity and fixed income. We are independent and employee owned by women and diverse professionals, whose common passion is to do the right thing for our clients and each other. Xponance[®] is the successor firm representing the integration of two great legacy firms, FIS Group, Inc. and Piedmont Investment Advisors, LLC.

Investment Philosophy & Process

Our investment philosophy focuses on striking an appropriate balance between risk and return in our management of clients' portfolios while taking ESG factors into consideration. The elements of this philosophy include – emphasis on security selection, quantification of major sources of risk, diversification as a means of managing common factor risk without reducing expected returns and controlling tracking error. We utilize internally developed quantitative models for stock selection. These models are built using factors that reflect and measure fundamental drivers of growth, value, and momentum, and have also been shown to be consistent and predictive drivers of long-term excess returns. Our portfolio construction methods focus on maximizing exposure to these factors while controlling both ESG risk and portfolio active risk.

Distinguishing Attributes

- Proven quantitative stock selection models
- Focused on achieving optimal risk-return tradeoffs
- ESG factors taken into consideration

Past performance is not indicative of future results. Periods greater than 1 year are annualized. The U.S. Dollar is the currency used to express performance.

Gross of fee returns are presented before management fees, but after custodial fees and transaction costs and include the reinvestment of all income. Since August 1, 2019, net of returns reflects a model annual management fee of 0.65%, applied monthly. Net of fee returns are calculated by deducting the model management fee from the monthly gross of fee returns. Prior to August 1, 2019, net of fee returns reflects the deduction of actual management fees, (including performance-based fees if applicable) from the monthly gross of fee returns. Actual management fees incurred by clients may vary. The composite include zero commission accounts.

The standard management fee schedule is as follows: First \$50mm: 70 bps; Next \$50mm: 60 bps; Over \$100mm: 50 bps. Fees are charged to clients on a quarterly basis. Fees are calculated as a percentage of assets under management and vary based upon the type of product and the total amount of assets under management. The percentage fee is expressed terms of basis points ("BPS") for our products. One hundred basis points equal 1%. All fees are negotiable.
